Engineering Drawing and Graphic Technology by French ... An engineering drawing is a type of technical drawing that is used to convey information about an object. A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. Usually, a number of drawings are necessary to completely specify even a simple component. The drawings are linked together by a master drawing or assembly drawing which gives the drawing numbers of the subsequent detailed components, quantities required, construction materia Engineering drawing - Wikipedia Book digitized by Google from the library of the University of Michigan and uploaded to the Internet Archive by user tpb.
